

JAYSON BENIZA

UI/UX Designer | Product Design | Front-End Development
jaysonbeniza@gmail.com | (+63) 927 947 6237 | Quezon City, PH | linkedin.com/in/jaybeniza | jaybeniza.vercel.app

PROFESSIONAL SUMMARY

Versatile UI/UX Designer with 3+ years of experience designing, prototyping, and scaling web and mobile applications. Skilled in building cohesive design systems, managing high-fidelity handoffs, and optimizing design-to-code pipelines. Combines a user-centered design approach with hands-on front-end development capabilities, leveraging Figma AI and Claude Code to accelerate development cycles and ensure responsive execution.

WORK EXPERIENCE

- Mid UI/UX Designer — PCI Innovations Tech Center

May 2024 - September 2026

 - Collaborated with product, development, and QA teams across 8 projects, presenting UX/UI solutions and design rationale to stakeholders and translating requirements into user-centered digital experiences.
 - Created and managed a project-wide design system comprising **15+** reusable UI components and assets, ensuring visual consistency and scalable design across the product.
 - Leveraged Claude Code and front-end technologies to develop **2** end-to-end web applications, shortening development cycles while maintaining alignment with approved UI design.
- Junior UI/UX Designer — PCI Innovations Tech Center

March 2023 - May 2024

 - Developed wireframes, prototypes, and high-fidelity interfaces for **6** web and mobile projects, providing clear specifications that supported efficient development.
 - Maintained accountability for delivering precise technical design blueprints to engineering, governing localized asset libraries with **15+** reusable UI components, and structuring version-controlled shared directories.
 - Improved overall layout consistency, maximized asset accessibility across development pipelines, and successfully minimized front-end interface implementation bugs by **70%** prior to deployment.

EDUCATION

- BS In Information Technology, Cum Laude — STI College Novaliches

June 2018 - August 2022

SKILLS

- UI/UX Design:** User interface and experience design, wireframing, prototyping, user flows, design systems, usability testing, responsive design, high-fidelity UI, and design handoff.
- Front-End Development:** Responsive web development using HTML5, CSS3, SASS/SCSS, JavaScript, React.js, Bootstrap, and Tailwind CSS.
- Design & Development Tools:** Figma, Figma AI, Adobe Photoshop, Adobe Illustrator, Visual Studio Code, Git, Claude Code, and Microsoft Office.

CERTIFICATES

- Data Analytics Level III Training Program — TESDA**September 2026
- Fundamentals of UI/UX Design — Microsoft**January 2026
- Generative AI: Impact, Considerations, and Ethical Issues — IBM**April 2025
- Generative AI: Foundation Models and Platforms — IBM**March 2025
- Civil Service Professional Eligibility — CSC Honor Graduate Eligibility**January 2023

AWARDS

- Innovations in Action Award:** Recognized for adopting new technologies to support project development.
- Agility Award:** Recognized for supporting fast-paced project development and delivery.
