JAYSON BENIZA

UI/UX & Product Designer | AI-Assisted Development
jaysonbeniza@gmail.com | (+63) 927 947 6237 | Quezon City, PH | linkedin.com/in/jaybeniza | jaybeniza.vercel.app

PROFESSIONAL SUMMARY

UI/UX and Product Designer with 3.5+ years of experience designing 14 web and mobile products for government, education, and research clients. Specializes in end-to-end product design, usability testing, scalable Figma design systems, and developer collaboration, and uses AI-assisted development tools, including Claude Code, to design and build products faster.

WORK EXPERIENCE

Mid UI/UX Designer — PCI Tech Center, May 2024 - October 2026

- Led end-to-end UI/UX design for 7 web and mobile projects, translating client requirements and usability testing findings into user flows, prototypes, and high-fidelity interfaces; used tester feedback to simplify a core flow from 5 steps to 3.
- Designed and built 3 web and mobile applications using Claude Code, collaborating with developers to resolve technical constraints and reducing feature development time by approximately 50%.
- Initiated centralized Figma design systems with 40+ reusable components after identifying inconsistent component use, standardizing UI patterns across projects.
- Turned around client-requested design revisions within 1–2 days, working closely with project managers to update web interfaces and hand them off to developers for implementation.

Junior UI/UX Designer — PCI Tech Center, March 2023 - May 2024

- Designed 75+ screens and 25 user flows across 7 projects (5 web platforms, 2 mobile apps), delivering wireframes, prototypes, and high-fidelity interfaces, with 3 platforms launched to production.
- Collaborated with project managers and developers to clarify requirements, prepare implementation-ready design specifications, and review developed interfaces for visual consistency.
- Delivered developer-ready design handoffs within 1–2 days of requests, supporting Agile sprint delivery and contributing to a team that achieved 100% sprint completion.
- Contributed to a UI/UX knowledge-sharing workshop for the company's interns.

EDUCATION

BS in Information Technology, Cum Laude — STI College Novaliches, June 2018 - August 2022

SKILLS

- **Product Design:** User flows, information architecture, interaction design, wireframing, prototyping, high-fidelity UI, responsive design, design systems, design handoff, usability testing
- **Front-End Development:** HTML5, CSS3, SASS/SCSS, JavaScript, React.js, Bootstrap, Tailwind CSS
- **Design & Development Tools:** Figma, Figma AI, Claude Code, Jira, Adobe Photoshop, Adobe Illustrator, VS Code, Git
- **Ways of Working**: Agile/Scrum and cross-functional collaboration

CERTIFICATIONS

- Data Analytics Level III Training Program — TESDA, September 2026
- UX Design Professional Certificate — Microsoft, September 2026
- Generative AI Fundamentals Specialization — IBM, April 2025
- Agile 101: Scrum Framework Fundamentals — PCI Tech Center, March 2024
- Civil Service Honor Graduate Eligibility — CSC, January 2023

AWARDS

- **Innovations in Action Award**, December 2025: Adopting new technologies in development.
- **Agility Award**, December 2025: Supporting fast-paced project delivery**.**
